Salvatore

“ The sea and boats have always been my passions, and the desire to live in contact with them as long as possible

Salvatore

È da questa passione che nasce Marricreo. Marricreo è una parola napoletana che significa soddisfarsi, appagarsi, gratificarsi, avere piacere, ed è esattamente quello che provo quando creo i miei prodotti.

Marricreo è una realtà che, per perseguire i propri risultati, si avvale di persone con diversi anni di esperienza nel campo della lavorazione della pelle e del legno.

Questa sinergia unita alla mia creatività ha dato vita a oggetti unici, funzionali e belli da vedere. La regola di base è: tutto fatto in Italia, senza compromessi!

It is from this passion that Marricreo is born. Marricreo is a Neapolitan word that means to satisfy, to gratify, to have pleasure, and that's exactly what I feel when I create my products. Marricreo is a reality that, to pursue the own results, makes use of people with different years of experience in the field of processing of leather and wood.

This synergy combined with my creativity has given life to unique, functional and beautiful objects from to see.

The basic rule is: all done in Italy, without compromise!

Qualità artigianale

Marricreo è una realtà lavorativa familiare, le mie idee nel tempo sono diventate dei prodotti, di buon gusto e di fattura accurata, con il fondamentale supporto artigiani che hanno deciso di sposare l'idea ed il progetto.

Il 100% delle idee nascono in azienda, il manufatto proviene da diversi artigiani, ognuno specializzato in un' arte, quali per esempio la ceramica, la tappezzeria poi trasformate.

Questo ci permette di offrire, con grande orgoglio, la possibilità di personalizzare tutto, dai colori al design. La provenienza degli oggetti di base e di ornamento è tutta italiana.

Il riconoscimento dei clienti è la motivazione che ci spinge a fare sempre di più e meglio, la condizione che trasforma questo lavoro in un fantastico divertimento.

Grazie!
Salvatore

Artisan quality

Marricreo is a family working reality, my ideas have become products of good taste and accurate workmanship over time, with the fundamental support of artisans who have decided to marry the idea and the project. 100% of the ideas are born in the company, the artifact comes from different artisans, each specialized in an art, such as ceramics, then upholstery.

This allows us to offer, with great pride, the ability to customize everything from colors to design.

The origin of the basic and ornament objects is all Italian.

Customer recognition is the motivation that drives us to do more and better and better, the condition that turns this job into fantastic fun.

Thank you so much!
Salvatore
